**Dotty and the Chimney Thief** Emma Warner-Reed 2016 All is not well in the world of The Calendar House. There's a rogue sweep on the loose, and they're not just stealing trinkets from the houses they enter, they're stealing the chimneys, too! To add insult to injury, little Joe Raman from the corner shop on Dotty's beloved Wyvern Road has gone missing and nobody knows why. It appears Dotty has a lot to contend with. The Council of Sweeps are looking for answers but it seems there aren't any to be found. Has Joe been abducted by thieves, or is there another reason for his disappearance? And can the Chimney Thief be stopped, before all the portals into the world of the ordinary folk have been sealed - forever. What readers have to say about DOTTY and the Chimney Thief: "I read [the first chapter] to the children tonight and they were instantly back to being as gripped as they were by the first book. They both laughed out loud at the wonderful descriptions of Gobby in the kitchen covered in flour (again) and the way she asked Kenny to remove Geoff! They cannot wait to find out what happens next." S. Johnson, Stallingborough "What a thoroughly enjoyable read this series is turning out to be. The Calendar House world is definitely a place worth visiting and revisiting. Dotty the perfect protagonist with more than two dimensions to her character is sassy, brave and very curious. Just the sort of traits the best of adventurers require to step out into the unknown. There are a lot of children's books out there but very few can entertain all ages. Parents reading "just one more chapter" to their sleepy children will particularly enjoy reciting this as a bedtime story. As for their children... They will wallow in the luxurious imagery created by Emma Warner-Reed. 5 stars." Paul Douglas Lovell, Goodreads

**The Doll's House** M. J. Arlidge 2015-02-12 Sunday Times Top Ten bestseller The Doll's House is the new twisting and terrifying thriller in the Detective Inspector Helen Grace series from M.J. Arlidge. Arlidge is the author of Eeny Meeny and Pop Goes the Weasel, and has been dubbed 'the new Jo Nesbo'. 'Detective Inspector Helen Grace is one of the greatest heroes to come along in years.' Jeffery Deaver, New York Times bestselling author of The Skin Collector and Solitude Creek 'The third instalment in the DI Grace series is as fast-paced and nail-bitingly tense as the first two. Taut and gripping, book four cannot come soon enough' Sun \*\*\*\*\* A young woman wakes up in a cold, dark cellar, with no idea how she got there or who her kidnapper is. So begins her terrible nightmare. Nearby, the body of another young woman is discovered buried on a remote beach. But the dead girl was never reported missing - her estranged family having received regular texts from her over the years. Someone has been keeping her alive from beyond the grave. For Detective Inspector Helen Grace it's chilling evidence that she's searching for a monster who is not just twisted but also clever and resourceful - a predator who's killed before. And as Helen struggles to understand the killer's motivation, she begins to realize that she's in a desperate race against time . . . PRAISE FOR M.J. ARLIDGE: 'Page-turningly chilling' The Times 'DI Helen Grace is a genuinely fresh heroine ... MJ Arlidge weaves together a tapestry that chills to the bone' Daily Mail 'M.J. Arlidge is the new Jo Nesbo' Judy Finnigan 'Taut, fast-paced, truly excellent' Sun 'Chilling stuff' Fabulist 'A chilling read' My Weekly 'A grisly, gripping thriller' Sunday Mirror 'Dark, twisted, thought provoking, and I couldn't turn the pages fast enough. Take a ride on this roller coaster from hell--white knuckles guaranteed.' Tami Hoag, number one New York Times bestselling author 'Gruesomely realistic, intriguing and relentless. Arlidge's fledgling army of fans is about to grow' Sunday Sport 'Eeny Meeny debuts one of the best new series detectives, Helen Grace. Determined, tough and damaged, she must unravel a terrifying riddle of a killer kidnapping victims in pairs. Mesmerizing!' Lisa Gardner 'Expertly pulled off. It has a devious premise. DI Helen Grace is fiendishly awesome. It's scary as all hell. And it has a full cast of realistically drawn, interesting characters that make the thing read like a bullet' Will Lavender 'A fast-paced, twisting police procedural and thriller that's sure to become another bestseller' Huffington Post *Books and Pamphlets, Including Serials and Contributions*

**Introduction to Probability** Charles Miller Grinstead

2012-10 This text is designed for an introductory probability course at the university level for sophomores, juniors, and seniors in mathematics, physical and social sciences, engineering, and computer science. It presents a thorough treatment of ideas and techniques necessary for a firm understanding of the subject. The text is also recommended for use in discrete probability courses. The material is organized so that the discrete and continuous probability discussions are presented in a separate, but parallel, manner. This organization does not emphasize an overly rigorous or formal view of probability and therefore offers some strong pedagogical value. Hence, the discrete discussions can sometimes serve to motivate the more abstract continuous probability discussions. Features: Key ideas are developed in a somewhat leisurely style, providing a variety of interesting applications to probability and showing some nonintuitive ideas. Over 600 exercises provide the opportunity for practicing skills and developing a sound understanding of ideas. Numerous historical comments deal with the development of discrete probability. The text includes many computer programs that illustrate the algorithms or the methods of computation for important problems. The book is a beautiful introduction to probability theory at the beginning level. The book contains a lot of examples and an easy development of theory without any sacrifice of rigor, keeping the abstraction to a minimal level. It is indeed a valuable addition to the study of probability theory. -- Zentralblatt MATH

**Anthropology of Landscape** Christopher Tilley 2017-02-01

An Anthropology of Landscape tells the fascinating story of a heathland landscape in south-west England and the way different individuals and groups engage with it. Based on a long-term anthropological study, the book emphasises four individual themes: embodied identities, the landscape as a sensuous material form that is acted upon and in turn acts on people, the landscape as contested, and its relation to emotion. The landscape is discussed in relation to these themes as both 'taskscape' and 'leisurescape', and from the perspective of different user groups. First, those who manage the landscape and use it for work: conservationists, environmentalists, archaeologists, the Royal Marines,

and quarrying interests. Second, those who use it in their leisure time: cyclists and horse riders, model aircraft flyers, walkers, people who fish there, and artists who are inspired by it. The book makes an innovative contribution to landscape studies and will appeal to all those interested in nature conservation, historic preservation, the politics of nature, the politics of identity, and an anthropology of Britain.

bookdown Yihui Xie 2016-12-12 bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

**After Utopia** Mack Reynolds 2011-09-29 It is the far future. Earth is beautifully planned efficiently run and happily united. It is the world that dreamers have envisioned since the beginning of time - no slums, no crime, no poverty, no disease, no shortages. But still, it is a world with problems - people have become so lazy, so self-satisfied, that human progress has all but ceased. To make matters worse, addicts of the newly-developed "programmed dreams" are increasing at an enormous rate. Only a few individuals understand the far-reaching consequences of these problems; only a few realize that the human race is destroying itself.

*Speaking of Faith* Krista Tippett 2008-01-29 A thought-provoking, original appraisal of the meaning of religion by the host of public radio's *On Being* Krista Tippett, widely becoming known as the Bill Moyers of radio, is one of the country's most intelligent and insightful commentators on religion, ethics, and the human spirit. With this book, she draws on her own life story and her intimate conversations with both ordinary and famous figures, including Elie Wiesel, Karen Armstrong, and Thich Nhat Hanh, to explore complex subjects like science, love, virtue, and violence within the context of spirituality and everyday life. Her way of speaking about the mysteries of life--and of listening with care to those who endeavor to understand those mysteries--is nothing short of revolutionary.
