*Destruction of Black Civilization: Great Issues of a  
Race From: 4500 B.C to 2000 A.D* Chancellor  
Williams 2019-11-04 This is a widely read classic

exposition of the history of Africans on the continent, the people of African descent in the United States and in the diaspora. This is well researched scholarly work detailing the development of civilisation in Africa and its destruction

**Black in Latin America** Henry Louis Gates, Jr. 2012-08-01 12.5 million Africans were shipped to the New World during the Middle Passage. While just over 11.0 million survived the arduous journey, only about 450,000 of them arrived in the United States. The rest-over ten and a half million-were taken to the Caribbean and Latin America. This astonishing fact changes our entire picture of the history of slavery in the Western hemisphere, and of its lasting cultural impact. These millions of Africans created new and vibrant cultures, magnificently compelling syntheses of various African, English, French, Portuguese, and Spanish influences. Despite their great numbers, the cultural and social worlds that they created remain largely unknown to

most Americans, except for certain popular, cross-over musical forms. So Henry Louis Gates, Jr. set out on a quest to discover how Latin Americans of African descent live now, and how the countries of their acknowledge-or deny-their African past; how the fact of race and African ancestry play themselves out in the multicultural worlds of the Caribbean and Latin America. Starting with the slave experience and extending to the present, Gates unveils the history of the African presence in six Latin American countries- Brazil, Cuba, the Dominican Republic, Haiti, Mexico, and Peru-through art, music, cuisine, dance, politics, and religion, but also the very palpable presence of anti-black racism that has sometimes sought to keep the black cultural presence from view.

**Don't Bring Home a White Boy** Karyn Langhorne Folan 2010-02-02 In Don't Bring Home a White Boy, writer Karyn Langhorne Folan debunks the myths about interracial relationships. Drawing on real-life testimonials,

she boldly tackles this difficult subject with warmth, humor, and understanding, as she explores stereotypes of black female sexuality and white male perspectives on black female beauty. Folan goes beyond statistics and offers firsthand insights on her own interracial relationship and attempts to tap into a woman's desire to have all that they deserve instead of restricting themselves, simply because they want a "good black man." Frank, authoritative, and universally relevant, her message to women is to look beyond skin color, accept themselves for who they are, and seek a man who truly loves them, regardless of race.

**Tussle at the Top** Vincent Windrow 2018-09-10  
For over a century, Black Greek fraternities have been at the forefront of leadership, achievement, and ground-breaking results. While the fraternities have graduate or alumni chapters through which some members are initiated through, the majority of the most-achieved members entered their respective fraternities

through a chapter on a college campus. Many of those college campuses were Historically Black Colleges and Universities (HBCUs). *Tussle at the Top: The Over One Hundred Year Competition Between the Omegas and the Alphas* examines two of the prominent fraternities of that group - Omega Psi Phi and Alpha Phi Alpha. Not only does the book review historical events relative to Black Greeks - the Omegas and Alphas particularly - it also sets both their competition and collaborations within the context of the Civil Rights Movement.

A Tale of Four Worlds David Ottaway 2019-08-01

First came the disintegration of the Ottoman Empire following World War I; then, in the 1950s and '60s, the Nasser-inspired wave of Arab nationalism and socialism. The Arab world's third great political cataclysm of the past 100 years has also brought permanent changes, but not as its activists had hoped: the 2011 uprisings. Their consequences have differed greatly from area to area, splintering the Arab region into four different worlds. The Levant states have disintegrated, possibly irreversibly. The Gulf monarchies have embarked on far-reaching plans of economic and social change to stave off discontent. Egypt has retreated into military authoritarianism and a war on Islamists,

threatening its future stability. Only the Maghreb countries, which have started integrating Islamists into their political systems, offer some hope for progress toward democracy. Marina and David Ottaway have brought together fifty years of experience observing the Arab world, and a wealth of first-hand information gathered from living and travelling extensively in the region. A Tale of Four Worlds is an indispensable analysis of the profound upheavals that have shaken--and continue to transform--Arab and global politics.

**American Tapestry** Rachel L. Swarns

2012-06-19 A remarkable history of First Lady Michelle Obama's mixed ancestry, American Tapestry by Rachel L. Swarns is nothing less than a breathtaking and expansive portrait of America itself. In this extraordinary feat of genealogical research—in the tradition of The Hemmingses of Monticello and Slaves in the Family—author Swarns, a respected Washington-based reporter for the New York Times, tells the fascinating and hitherto untold story of Ms. Obama's black, white,

and multiracial ancestors; a history that the First Lady herself did not know. At once epic, provocative, and inspiring, *American Tapestry* is more than a true family saga; it is an illuminating mirror in which we may all see ourselves.

**Last Dance in Havana** Eugene Robinson 2012-11-20 In power for forty-four years and counting, Fidel Castro has done everything possible to define Cuba to the world and to itself -- yet not even he has been able to control the thoughts and dreams of his people. Those thoughts and dreams are the basis for what may become a post-Castro Cuba. To more fully understand the future of America's near neighbor, veteran reporter Eugene Robinson

knew exactly where to look -- or rather, to listen. In this provocative work, Robinson takes us on a sweaty, pulsating, and lyrical tour of a country on the verge of revolution, using its musicians as a window into its present and future. Music is the mother's milk of Cuban culture. Cubans express their fondest hopes, their frustrations, even their political dissent, through music. Most Americans think only of salsa and the Buena Vista Social Club when they think of the music of Cuba, yet those styles are but a piece of a broad musical spectrum. Just as the West learned more about China after the Cultural Revolution by watching From Mao to Mozart, so will readers discover the real Cuba -- the living, breathing, dying, yet striving Cuba. Cuban music is both wildly exuberant and achingly melancholy. A thick stew of African and European elements, it is astoundingly rich and influential to have come from such a tiny island. From rap stars who defy the government in their lyrics to violinists and pianists who attend the world's last Soviet-style

conservatory to international pop stars who could make millions abroad yet choose to stay and work for peanuts, Robinson introduces us to unforgettable characters who happily bring him into their homes and backstage discussions. Despite Castro's attempts to shut down nightclubs, obstruct artists, and subsidize only what he wants, the musicians and dancers of Cuba cannot stop, much less behave. Cubans move through their complicated lives the way they move on the dance floor, dashing and darting and spinning on a dime, seducing joy and fulfillment and next week's supply of food out of a broken system. Then at night they take to the real dance floors and invent fantastic new steps. Last Dance in Havana is heartwrenching, yet ultimately as joyous and hopeful as a rocking club late on a Saturday night.

**Destiny Calling** Charles M. Madigan 2009-10-16  
On a bitter cold day in 2007—nearly 150 years after Abraham Lincoln's inauguration—United States Senator Barack Obama of Illinois gathered

his supporters at the old state capitol in Springfield, Illinois. Very new to the national political arena, he made an audacious announcement: "If you feel destiny calling, and see as I see, a future of endless possibility stretching before us; if you sense, as I sense, that the time is now to shake off our slumber, and slough off our fear, and make good on the debt we owe past and future generations, then I'm ready to take up the cause . . ." With those words Obama launched one of history's most remarkable presidential campaigns, a forceful intent that revived a moribund political party, cornered its adversaries, gathered increased political momentum with each new day, and ultimately placed a black man in the White House, something nay-sayers proclaimed would never happen. Emphasizing the revealing experiences of representative Americans from around the country, who tell how the previous eight years of failed policies shaped their personal fate and prompted them to vote for a

newcomer blazing the banner of change, *Destiny Calling* traces a political campaign that fulfilled Lincoln's promise even as it illuminated for the world—a new —America's commitment of hope and freedom. Charles Madigan avoids the "inside politics" tack and the redundancy of most contemporary political coverage. Instead he taps an unheard-from-until-now range of American voters—the most important sources of all, the people who made the decision to send Obama to the White House. Their frustration with the wars, with the response to Hurricane Katrina, with a flat-lining economy, and with the cynicism of politics as usual helped fuel the movement that set a new standard for national campaigns, made the impossible the real, and changed forever how the nation views the process of choosing its leader. **The End of Anger** Ellis Cose 2012-05-08 With *The Rage of a Privileged Class*, Ellis Cose, a venerated and bestselling voice on American life,

offered an eye-opening look at the simmering anger of the black middle class. Some sixteen years later, Cose has discovered this group is much less angry and even optimistic about its future, despite a flagging economy and a deeply divided body politic. With *The End of Anger*, Cose examines these new attitudes as well as the decline of white guilt and the intergenerational shifts in how blacks and whites view and interact with each other. Weaving material from interviews and two large and ambitious surveys, Cose—an esteemed journalist—offers an invaluable portrait of contemporary America, one that attempts to make sense of what a people do when the American dream, for some, is finally within reach, as one historical era ends and another begins. *The End of Anger* is an indispensable exploration of how mores change from one generation to the next and may well be the most important book dealing with race and class to be published in recent decades.

**Nixonland** Rick Perlstein 2010-07-29 An exciting

e-format containing 27 video clips taken directly from the CBS news archive of a brilliant, best-selling account of the Nixon era by one of America's most talented young historians. Between 1965 and 1972 America experienced a second civil war. Out of its ashes, the political world we know today was born. Nixonland begins in the blood and fire of the Watts riots—one week after President Johnson signed the Voting Rights Act, and nine months after his historic landslide victory over Barry Goldwater seemed to have heralded a permanent liberal consensus. The next year scores of liberals were thrown out of Congress, America was more divided than ever—and a disgraced politician was on his way to a shocking comeback: Richard Nixon. Six years later, President Nixon, harvesting the bitterness and resentment borne of that blood and fire, was reelected in a landslide even bigger than Johnson's, and the outlines of today's politics of red-and-blue division became already distinct. Cataclysms tell the story of Nixonland: • Angry

blacks burning down their neighborhoods, while suburbanites defend home and hearth with shotguns. • The civil war over Vietnam, the assassinations, the riot at the Democratic National Convention. • Richard Nixon acceding to the presidency pledging a new dawn of national unity—and governing more divisively than any before him. • The rise of twin cultures of left- and right-wing vigilantes, Americans literally bombing and cutting each other down in the streets over political differences. • And, finally, Watergate, the fruit of a president who rose by matching his own anxieties and dreads with those of an increasingly frightened electorate—but whose anxieties and dreads produced a criminal conspiracy in the Oval Office.

Caste chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for

civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

Three Negro Classics James Weldon Johnson

1999-02-01 UP FROM SLAVERY The autobiography of Booker T Washington is a startling portrait of one of the great Americans of the late nineteenth and early twentieth century. The illegitimate son of a white man and a Negro slave, Washington, a man who struggled for his education, would go on to struggle for the dignity of all his people in a hostile and alien society.

THE SOULS OF BLACK FOLK W.E.B. DuBois's classic is a major sociological document and one of the momentous books in the mosaic of American literature. No other work has had greater influence on black thinking, and nowhere is the African-American's unique heritage and his kinship with all men so passionately described.

THE AUTOBIOGRAPHY OF AN EX-COLORED MAN Originally published anonymously, James Weldon Johnson's penetrating work is a remarkable human account of the life of black Americans in the early twentieth century and a profound interpretation of his feelings towards the white man and towards members of his own race. No

other book touches with such understanding and objectivity on the phenomenon once called "passing" in a white society. These three narratives, gathered together in Three Negro Classics chronicle the remarkable evolution of African-American consciousness on both a personal and social level. **The Great Unraveling: Losing Our Way in the New Century** Paul Krugman 2004-08-17  
"Paul Krugman is a hero of mine. Read his book."—Al Franken No one has more authority to call the shots the way they really are than award-winning economist Paul Krugman, whose provocative New York Times columns are keenly followed by millions. One of the world's most respected economists, Krugman has been named America's most important columnist by the Washington Monthly and columnist of the year by Editor and Publisher magazine. A major bestseller, this influential and wide-ranging book has been praised by BusinessWeek as Krugman's "most provocative and compelling effort yet," the New York Review of Books as "refreshing," and Library Journal as "thought-provoking...even funny." The American Prospect put it in vivid terms: "In a time when too few tell it like it is...[Krugman] has taken on the battle of our time." Built from Paul Krugman's influential Op-Ed columns for the New York Times, this book

galvanized the reading public. With wit, passion, and a unique ability to explain complex issues in plain English, Krugman describes how the nation has been misled by a dishonest administration. In this long-awaited work containing Krugman's most influential columns along with new commentary, he chronicles how the boom economy unraveled: how exuberance gave way to pessimism, how the age of corporate heroes gave way to corporate scandals, how fiscal responsibility collapsed. From his account of the secret history of the California energy crisis to his devastating dissections of dishonesty in the Bush administration, from the war in Iraq to the looting of California to the false pretenses used to sell an economic policy that benefits only a small elite, Krugman tells the uncomfortable truth like no one else. And he gives us the road map we will need to follow if we are to get the country back on track. The paperback edition features a new introduction as well as new writings.

*Democracy in Black* Eddie S. Glaude Jr.

2016-01-12 A powerful polemic on the state of black America that savages the idea of a post-racial society. America's great promise of equality has always rung hollow in the ears of African Americans. But today the situation has grown even more dire. From the murders of black youth by the police, to the dismantling of the Voting Rights Act, to the disaster visited upon poor and middle-class black families by the Great Recession, it is clear that black America faces an emergency—at the very moment the election of the first black president has prompted many to believe we've solved America's race problem. *Democracy in Black* is Eddie S. Glaude Jr.'s impassioned response. Part manifesto, part history, part memoir, it argues that we live in a country founded on a "value gap"—with white lives valued more than others—that still distorts our politics today. Whether discussing why all Americans have racial habits that reinforce inequality, why black politics based on the civil-rights era have reached a dead end, or why only

remaking democracy from the ground up can bring real change, Glaude crystallizes the untenable position of black America--and offers thoughts on a better way forward. Forceful in ideas and unsettling in its candor, *Democracy In Black* is a landmark book on race in America, one that promises to spark wide discussion as we move toward the end of our first black presidency.

**Assimilation Blues** Beverly Daniel Tatum 1987

"What does it mean to be Black in a white, middle-class community? Is it the ultimate symbol of success? Or will one pay in isolation, alienation, rootlessness? What price must one pay for paradise? Is the price too high? Beverly Daniel Tatum, a renowned authority on the psychology of racism, interviewed Black families in depth to identify the sacrifices and achievements necessary to survive and prosper in a white community. For the Black citizens of 'Sun Beach, ' dual-income households, religious affiliation, and extended families help maintain

stability. But with assimilation comes an insidious 'hidden racism, ' subtly communicated when Black children aren't called on in class and revealed more fully in incidents of racial name-calling. By listening to the individual voices of these children and their parents, Dr. Tatum skillfully probes the complex questions of identity that arise for a visible people rendered invisible by their surroundings"--Publisher description.

**The Making of African America** Ira Berlin

2010-01-21 A leading historian offers a sweeping new account of the African American experience over four centuries Four great migrations defined the history of black people in America: the violent removal of Africans to the east coast of North America known as the Middle Passage; the relocation of one million slaves to the interior of the antebellum South; the movement of more than six million blacks to the industrial cities of the north and west a century later; and since the late 1960s, the arrival of black immigrants from Africa, the Caribbean, South America, and

Europe. These epic migrations have made and remade African American life. Ira Berlin's magisterial new account of these passages evokes both the terrible price and the moving triumphs of a people forcibly and then willingly migrating to America. In effect, Berlin rewrites the master narrative of African America, challenging the traditional presentation of a linear path of progress. He finds instead a dynamic of change in which eras of deep rootedness alternate with eras of massive movement, tradition giving way to innovation. The culture of black America is constantly evolving, affected by (and affecting) places as far away from one another as Biloxi, Chicago, Kingston, and Lagos. Certain to garner widespread media attention, *The Making of African America* is a bold new account of a long and crucial chapter of American history.

*Unfamiliar Fishes* Sarah Vowell 2011-03-22 From the author of *Lafayette in the Somewhat United States*, an examination of Hawaii, the place where Manifest Destiny got a sunburn. Many

think of 1776 as the defining year of American history, when we became a nation devoted to the pursuit of happiness through self-government. In *Unfamiliar Fishes*, Sarah Vowell argues that 1898 might be a year just as defining, when, in an orgy of imperialism, the United States annexed Hawaii, Puerto Rico, and Guam, and invaded first Cuba, then the Philippines, becoming an international superpower practically overnight. Among the developments in these outposts of 1898, Vowell considers the Americanization of Hawaii the most intriguing. From the arrival of New England missionaries in 1820, their goal to Christianize the local heathen, to the coup d'état of the missionaries' sons in 1893, which overthrew the Hawaiian queen, the events leading up to American annexation feature a cast of beguiling, and often appealing or tragic, characters: whalers who fired cannons at the Bible-thumpers denying them their God-given right to whores, an incestuous princess pulled between her new god and her brother-husband,

sugar barons, lepers, con men, Theodore Roosevelt, and the last Hawaiian queen, a songwriter whose sentimental ode "Aloha 'Oe" serenaded the first Hawaiian president of the United States during his 2009 inaugural parade. With her trademark smart-alecky insights and reporting, Vowell lights out to discover the off, emblematic, and exceptional history of the fiftieth state, and in so doing finds America, warts and all.

**From #BlackLivesMatter to Black Liberation**  
Keeanga-Yamahtta Taylor 2016-02-01 The author of *Race for Profit* carries out "[a] searching examination of the social, political and economic dimensions of the prevailing racial order" (Michelle Alexander, author of *The New Jim Crow*). In this winner of the Lannan Cultural Freedom Prize for an Especially Notable Book, Keeanga-Yamahtta Taylor "not only exposes the canard of color-blindness but reveals how structural racism and class oppression are joined at the hip" (Robin D. G. Kelley, author of *Freedom*

Dreams). The eruption of mass protests in the wake of the police murders of Michael Brown in Ferguson, Missouri, and Eric Garner in New York City have challenged the impunity with which officers of the law carry out violence against black people and punctured the illusion of a post-racial America. The Black Lives Matter movement has awakened a new generation of activists. In this stirring and insightful analysis, activist and scholar Keeanga-Yamahtta Taylor surveys the historical and contemporary ravages of racism and the persistence of structural inequality, such as mass incarceration and black unemployment. In this context, she argues that this new struggle against police violence holds the potential to reignite a broader push for black liberation. "This brilliant book is the best analysis we have of the #BlackLivesMatter moment of the long struggle for freedom in America. Keeanga-Yamahtta Taylor has emerged as the most sophisticated and courageous radical intellectual of her generation." —Dr. Cornel West, author of *Race*

*Matters* "A must read for everyone who is serious about the ongoing praxis of freedom." —Barbara Ransby, author of *Ella Baker and the Black Freedom Movement* "[A] penetrating, vital analysis of race and class at this critical moment in America's racial history." —Gary Younge, author of *The Speech: The Story Behind Dr. Martin Luther King Jr.'s Dream*  
*Conversate is Not a Word* Jam Donaldson 2010 Many black men--from Bill Cosby to Michael Eric Dyson--have spoken out about African American society. But where are the voices of the women, especially the young, funny, witty, sarcastic ones? Jam Donaldson offers food for thought, encouraging people to improve their lives as well as the culture overall. Weaving her own warring viewpoints into the discussion, Donaldson provides not only comic relief but a window into the complex, contradictory perspectives existing within every member of the black community.  
**When Conscience and Power Meet** Eugene N. Zeigler 2008 Zeigler made a name for himself in

South Carolina politics through his campaign for the U.S. Senate in 1972 against Strom Thurmond and a subsequent candidacy in the states 1974 Democratic gubernatorial primary. Unsuccessful in both, Zeigler nonetheless distinguished himself as a man of passionate convictions in the value of public service. His memoir recounts these and other defining moments from a life spent pursuing the public good, often against insurmountable opposition. A native of Florence, South Carolina, Zeigler represents a vanishing breed of public servant the classically educated progressive rising from modest small-town roots and driven by a genuine sense of responsibility to better his community, state, and country. Throughout his career, Zeigler has faced the frustration of being on the verge of high office or important reform, yet ending up on the losing side or having played just a minor role in victory. Undaunted by these near misses, he takes satisfaction in the effort over the results.

**Dear White America** Tim Wise 2012-01-10

White Americans have long been comfortable in the assumption that they are the cultural norm. Now that notion is being challenged, as white people wrestle with what it means to be part of a fast-changing, truly multicultural nation. Facing chronic economic insecurity, a popular culture that reflects the nation's diverse cultural reality, a future in which they will no longer constitute the majority of the population, and with a black president in the White House, whites are growing anxious. This anxiety has helped to create the Tea Party movement, with its call to "take our country back." By means of a racialized nostalgia for a mythological past, the Right is enlisting fearful whites into its campaign for reactionary social and economic policies. In urgent response, Tim Wise has penned his most pointed and provocative work to date. Employing the form of direct personal address, he points a finger at whites' race-based self-delusion, explaining how such an agenda will only do harm to the nation's people, including most whites. In no uncertain

terms, he argues that the hope for survival of American democracy lies in the embrace of our multicultural past, present and future. "Sparing neither family nor self...he considers how the deck has always been stacked in his and other white people's favor...His candor is invigorating."—Publishers Weekly "One of the most brilliant, articulate and courageous critics of white privilege in the nation."—Michael Eric Dyson "Tim Wise has written another blockbuster! His new book, *Dear White America: Letter to a New Minority*, is a cogent analysis of the problems of race and inequality as well as a plea for those who harbor views about race and racism to modify and indeed eliminate them. While the book's title addresses white people, this is really a book for anyone who is concerned about eliminating the issue of racial disparity in our society. This is must read and a good read."—Charles J. Ogletree, Jr., the Jesse Climenko Professor of Law at Harvard Law School and the Executive Director of the Charles

Hamilton Houston Institute for Race and Justice. He is the author of a number of books, including *The Presumption of Guilt: The Arrest of Henry Louis Gates, Jr.* and *Race, Class and Crime in America* "Tim Wise is an American hero in the truest sense of the term—he tells the truth, no matter how inconvenient that truth might be. *Dear White America* is a desperately needed response to the insidious mythology that pretends whites are oppressed and people of color unduly privileged. In the process, it exposes how new forms of racism have been deliberately embedded into our supposedly 'color blind' culture. Read this book—but rest assured, it's not for the faint of heart."—David Sirota, syndicated columnist, radio host, author of *Back to Our Future: How the 1980s Explain the World We Live In Now* "The foremost white analyst of racism in America never fails to provide fresh takes as he punctures myths and defenses."—World Wide Work Tim Wise is one of the most prominent antiracist essayists, educators, and activists in

the United States. He is regularly interviewed by A-list media, including CNN, C-SPAN, The Tavis Smiley Show, The Tom Joyner Morning Show, Michael Eric Dyson's radio program, and many more. His most recent books include *Colorblind* and *Between Barack and a Hard Place*.

*Coal to Cream* Eugene Robinson 1999 A black journalist shares the insights into race and power he found while living in Brazil, a nation plagued with racial divides but lacking the sense of racial identity and pride needed to overcome those problems. 30,000 first printing.

*The Democratization of American Christianity* Nathan O. Hatch 1991-01-23 In this prize-winning book Nathan O. Hatch offers a provocative reassessment of religion and culture in the early days of the American republic, arguing that during this period American Christianity was democratized and common people became powerful actors on the religious scene. Hatch examines five distinct traditions or mass movements that emerged early in the nineteenth

century—the Christian movement, Methodism, the Baptist movement, the black churches, and the Mormons—showing how all offered compelling visions of individual potential and collective aspiration to the unschooled and unsophisticated. "Rarely do works of scholarship deserve as much attention as this one. The so-called Second Great Awakening was the shaping epoch of American Protestantism, and this book is the most important study of it ever published."—James Turner, *Journal of Interdisciplinary History* "The most powerful, informed, and complex suggestion yet made about the religious, political, and psychic 'opening' of American life from Jefferson to Jackson. . . . Hatch's reconstruction of his five religious mass movements will add popular religious culture to denominationalism, church and state, and theology as primary dimensions of American religious history."—Robert M. Calhoon, *William and Mary Quarterly* "Hatch's revisionist work asks us to put the religion of the early

republic in a radically new perspective. . . . He has written one of the finest books on American religious history to appear in many years."—James H. Moorhead, *Theology Today* The manuscript version of this book was awarded the 1988 Albert C. Outler Prize in Ecumenical Church History from the American Society of Church History Awarded the 1989 book prize of the Society for Historians of the Early American Republic for the best book in the history of the early republic (1789-1850) Co-winner of the 1990 John Hope Franklin Publication Prize given by the American Studies Association for the best book in American Studies Nathan O. Hatch is professor of history and vice president for Graduate Studies and Research at the University of Notre Dame. *Free at Last?* Carl F. Ellis Jr. 2020-06-16 In this historical and cultural study, Carl Ellis offers an in-depth assessment of the state of African American freedom and dignity. Tracing the growth of Black consciousness from the days of slavery to the 1990s, Ellis examines Black culture

and shows how God is revitalizing the African American church and expanding its cultural range.

**What We Can't Not Know** J. Budziszewski

2011-01-01 Professor J. Budziszewski questions the modern assumption that moral truths are unknowable. With clear and logical arguments he rehabilitates the natural law tradition and restores confidence in a moral code based upon human nature. --from publisher description.

**Picturing Resistance** Melanie Light 2020-10-20  
A compelling photographic history of the important moments of progressive resistance--from the civil rights movement to the present--to inspire the change-makers and activists of today. A powerful commemoration of notable moments of protest, Picturing Resistance highlights the important American social justice movements of the last seven decades. Including both black-and-white and color photographs, this important record pairs iconic and unexpected images with insightful narrative captions that contextualize the meanings behind the moments. UC Berkeley Graduate School of Journalism professor Ken Light and author Melanie Light have carefully curated unconventional photographs of the most

memorable moments in twentieth- and twenty-first-century protest history, offering a fresh perspective on these important occasions. In place of the iconic image of Martin Luther King, Jr. speaking at the March on Washington, Picturing Resistance conveys the feeling of pain and frustration of the time period by instead showing him moments after being arrested, restrained against a police station table. The moments captured in Picturing Resistance take the reader on a journey through decades of people-powered protest, featuring images from the front lines of the civil rights, women's, environmental, and disability rights movements, as well as contemporary movements like Black Lives Matter and March for Our Lives. Picturing Resistance will inspire revolutionary thinkers, activists, and dreamers of all stripes to celebrate the milestones of the past as we build a progressive future.

**Disintegration** Eugene Robinson 2010-10-05  
Instead of one black America, today there are

four. “There was a time when there were agreed-upon 'black leaders,' when there was a clear 'black agenda,' when we could talk confidently about 'the state of black America'—but not anymore.” —from *Disintegration*

The African American population in the United States has always been seen as a single entity: a “Black America” with unified interests and needs. In his groundbreaking book, *Disintegration*, Pulitzer-Prize winning columnist Eugene Robinson argues that over decades of desegregation, affirmative action, and immigration, the concept of Black America has shattered. Instead of one black America, now there are four:

- a Mainstream middle-class majority with a full ownership stake in American society;
- a large, Abandoned minority with less hope of escaping poverty and dysfunction than at any time since Reconstruction’s crushing end;
- a small Transcendent elite with such enormous wealth, power, and influence that even white folks have to genuflect;
- and two newly Emergent

groups—individuals of mixed-race heritage and communities of recent black immigrants—that make us wonder what “black” is even supposed to mean. Robinson shows that the four black Americas are increasingly distinct, separated by demography, geography, and psychology. They have different profiles, different mindsets, different hopes, fears, and dreams. What’s more, these groups have become so distinct that they view each other with mistrust and apprehension. And yet all are reluctant to acknowledge division. *Disintegration* offers a new paradigm for understanding race in America, with implications both hopeful and dispiriting. It shines necessary light on debates about affirmative action, racial identity, and the ultimate question of whether the black community will endure.

[A Game of Character](#) Craig Robinson 2010-04-20

The eagerly anticipated inspirational memoir from Michelle Obama's brother, celebrating the extraordinary family members and mentors who have shaped his life When he stepped into

history's spotlight at the National Democratic Convention, Craig Robinson recalls that nothing could have been more gratifying than introducing his sister, Michelle Obama, to millions of Americans. Within minutes, he won the hearts of the nation by sharing highlights of growing up in the modest Robinson household, where the two were raised by devoted parents who taught them the values of education, hard work, and the importance of reaching far beyond what even seemed possible. Those lessons of character were fundamentals in shaping Craig Robinson's own remarkable journey: from his days playing street basketball on Chicago's Southside, while excelling academically, to admission at Princeton University, where he was later named Ivy League Player of the Year, twice. After playing professionally in Europe, Robinson made an about-face, entering the competitive field of finance. With his MBA from the University of Chicago, his meteoric rise landed him a partnership in a promising new venture. But

another dream beckoned and Craig made the unusual decision to forego the trappings of money and status in the business world in order to become a basketball coach. He soon helped transform three struggling teams - as an assistant coach at Northwestern, then as head coach at Brown and now at Oregon State University. In his first season at OSU, he navigated what was declared to be one of the nation's best single season turnarounds. In *A Game of Character*, Robinson takes readers behind the scenes to meet his most important influences in his understanding of the winning traits that are part of his playbook for success. Central to his story are his parents, Marian and Fraser, two indefatigable individuals who showed their children how to believe in themselves and live their lives with conviction through love, discipline and respect. With insights into this exemplary family, we relive memories of how Marian sacrificed a career to be a full-time mom, how Fraser got up and went to work every day

while confronting the challenges of multiple sclerosis, how Craig and Michelle strengthened their bond as they journeyed out of the Southside to Princeton University and eventually, the national stage. Heartwarming, inspiring, and even transformational, *A Game of Character* comes just at the right time in an era of change, reminding readers of our opportunity to work together and embrace the character of our

nation, to make a difference in the lives of others and to pave the way for the next generation.
