Business Data Communications William Stallings 2009 Business Data Communications, 6/e, is ideal for use in Business Data Communications,

Data Communications, and introductory Networking for Business courses. Business Data Communications, 6/e, covers the fundamentals of data communications, networking, distributed applications, and network management and security. Stallings presents these concepts in a way that relates specifically to the business environment and the concerns of business management and staff, structuring his text around requirements, ingredients, and applications. While making liberal use of real-world case studies and charts and graphs to provide a business perspective, the book also provides the student with a solid grasp of the technical foundation of business data communications. Throughout the text, references to the interactive, online animations supply a powerful tool in understanding complex protocol mechanisms. The Sixth Edition maintains Stallings' superlative support for either a research projects or modeling projects component in the course. The diverse set of projects and student exercises enables the instructor to use the book as a component in a rich and varied learning experience and to tailor a course plan to meet the specific needs of the instructor and students.

Essential MATLAB for Scientists and Engineers Brian D. Hahn 2002 Based on a teach-yourself approach, the fundamentals of MATLAB are illustrated throughout with many examples from a number of different scientific and engineering areas, such as simulation, population modelling, and numerical methods, as well as from business and everyday life. Some of the examples draw on first-year university level maths, but these are self-contained so that their omission will not detract from learning the principles of using MATLAB. This completely revised new edition is based on the latest version of MATLAB. New chapters cover handle graphics, graphical user interfaces (GUIs), structures and cell arrays, and importing/exporting data. The chapter on numerical methods now includes a general GUI-driver ODE solver. * Maintains the easy informal style of the first edition * Teaches the basic principles of scientific programming with MATLAB as the vehicle * Covers the latest version of MATLAB

Effective Communication in Organisations Fielding M L Du Plooy-Cilliers F 2014 Modern day organisations are more dependent on communication to achieve success than ever before. Rapid development and greater complexity of communication technologies, and the growing importance and popularity of social media, means that organisations can no longer rely on traditional methods alone to engage in effective business communication. Social media and new communication forms, however, come with their own challenges and pitfalls. Organisations need to carefully and strategically consider the use of these new media as part of their effective communication plan. *Effective business communication in organisations*, 4th edition, builds on traditional communication forms with up-to-date theory. It discusses new communication trends and the

changing nature of communication in businesses.
