Is our natural attraction to Beauty another weapon in our arsenal of species' survival? This book examines many so-called rules of composition in the visual arts to find natural reasons for their existence. It is designed to aide the visual artist and those who appreciate their work by bringing attention to subtle cues of attraction cultivated by our ancient and immediate ancestors. It calls upon recent work in neuroaesthetics and other scientific disciplines to back up its speculative claims, and asks the reader to contribute opinions of their own on the books' website at naturallycomposed.com. There are many examples of photos in the book, and the reader is again asked to insert their own examples to enforce or refute the claims.

Investment Analysis and Portfolio Management Jerome B. Cohen 1967
Technical Analysis - Myth or Magic? Christian Koessler 2010-12-23
Inhaltsangabe: Introduction: The following paper will outline the suitability of Technical Analysis (TA), regarding selective chosen tools for performance increase versus the classic Buy-and-Hold-Strategy (BHS). These two approaches, beside the Fundamental Analysis (FA), are the foundations used by investors concerning their Investment strategy and differ substantially in their nature. Thereby, this dissertation will investigate whether the application of active TA is a productive approach, yielding to favourable results and having the ability to outperform the passive BHS. To achieve substantive results, the comparisons of performances will be stretched to 21 years and are based on the following three indices, which differ significantly concerning their location, volume and importance. Standard & Poor s 500 (S&P 500). German Stock Exchange (DAX). Japanese Nikkei 225 (N225). However, to reinforce the impression of the analysis, semi-annual and annual performances will also be measured. This is an essential element of the comparisons, as due to the nature of TA, the seed capital of 1.000.000 Sterling will not be invested at all times. In this case, the capital will yield the current base rate of interest of the Bank of England minus 0.5 % per annum. The measurements will be assessed by means of three established Indicators and Oscillators. Indicators: Exponential Moving Averages; 200 days and 100 days. Moving Average Convergence Divergence. Bollinger Bands. Oscillators: Relative Strength Index. Slow Stochastic. Momentum. TA can be divided into Chartism and the statistical based TA. Although a clear demarcation between these groups is not given in reality, as most proponents of TA combine both techniques. The vast majority of this dissertation will only reflect the latter. This can also be justified, as Chartists predict future price developments based on trend lines, patterns and formations. Murphy (1999) states that all Chartists are Technical Analysts, but not all Technical Analysts are Chartists. Due to the lack of standardised price

characteristics, Chartism implies a high degree of subjectivity. Therefore, the absence of operational ability of this sub-area would not lead to a feasible analysis concerning an increase in performance. We maintain that financial markets are either moving in boom or bust cycles (Bull or Bear Markets). The classic BHS, based on the Investment-Legend Benjamin Graham, has generated high profits in the [...]

Three Steps to Wealth & Financial Security Gary M. Laturno 2013-07-18 "I recommend this book highly as one of the 10 most important 'must read' books published this year," Robert Plotkin, Founding President, World Trade Center San Diego. "Three Steps to Wealth & Financial Security - All That Glitters Isn't Gold" is a back to basics, easy to use guide to reassert financial control and secure your financial future. The book draws on real world examples that husband-and-wife authors attorney Gary Laturno, Esq. and Victoria Kuick, MBA, have encountered in counseling over two thousand homeowners in financial distress since 2007. As a result, the book will be an easy read for people who find financial matters confusing or even frightening. The authors' straightforward guidance and recommendations will help many take charge of their financial futures. Comments by Readers: I read your book last night. I'm incredibly impressed! It's a huge undertaking to

present an enormous wealth of REALLY important and helpful information in a streamlined way...but you guys did it! And, I think your readers will really appreciate the genuine tone and straightforward approach—life changing stuff. Great job! I see this book distributed in high schools, colleges (law schools particularly—some lawyers are not great when it comes to financial matters), vocational schools, and the like. I hope you're aiming to reach the masses with this one—the subject matter is so salient right now, and this information is really resonating with people. Jennifer Manganello, Esq., University of California, Hastings College of the Law I just finished reading your book. Outstanding! I love the unique way it was written in PowerPoint format—original, straightforward, and easy to follow. The information the book contains, and how it is explained, makes it stand out. You do not allow the reader to blame others or make excuses about their financial situation. You tell them to look in the mirror, take responsibility, and you show them that money problems are not hopeless but fixable. The stock and real estate investing sections are informative and easy to understand. You take the complexity out of stock market investing. You show real estate investors the pitfalls to avoid. Readers will especially benefit from how you compare and contrast real estate investing with the stock market and other investments — bonds, precious metals and cash. It's evident the book was written from firsthand experience, making it truly authentic. I am impressed both by your credentials and your experience counseling over 2,000 homeowners in financial distress since 2007. This book cuts to the core of what people need to know and do to put their financial house in order. I highly recommend your book! Read it and you will substantially increase your financial I.Q. Dory Laramore, Certified Registered Tax Preparer, and author of Get Your Finances Right: The Foundation for Success “Three Steps to Wealth & Financial Security” is well written, concise and provides a wealth of financial advice for every American. The authors ask and answer a number of profound questions. What are the lessons of the housing crisis? Why are savings rates in the United States so low? Why do so many retire on Social Security only? Why do so many mismanage their financial affairs? How do we put our

financial house in order? What do we need to know and do to be financially secure? Understand the mistakes that so many made and continue to make. Fine tune your financial plan and money management skills. Recommendation: Read the book! Money management, financial planning, and wealth building are mandatory subjects not electives. Andrew J. Sussman, Esq., Partner, RSR Law Group, San Diego, California
What's Your Green Goldfish? Stan Phelps 2013-03-01 What's Your Green Goldfish is based on the simple premise that employees are the key drivers of customer experience and that "Happy Employees Create Happy Customers." The book focuses on 15 different ways to drive employee engagement and reinforce a strong corporate culture. It's the second book in the goldfish trilogy. The first book was an Amazon Best Seller entitled, What's Your Purple Goldfish. Purple focused on customers, whereby Green focuses on employees. Both books are based on a revolutionary new approach called marketing g.l.u.e. (marketing by giving little unexpected extras). The book is based on the findings of the Green Goldfish Project, an effort which crowd sourced 1,001 examples of signature added value for employees. Key themes emerged from the Project. The book is filled with over 200 examples. PRAISE FOR WHAT'S YOUR GREEN GOLDFISH "Stan is the sherpa that guides executives along the journey between the heart and mind of business stakeholders.
