## **La via italiana alla democrazia** Paolo Soddu

2017-01-12T00:00:00+01:00 All'inizio del 2013 si sono verificati due eventi inediti: la rielezione a capo dello Stato di Giorgio Napolitano e il successo elettorale del Movimento 5 Stelle. Questi due fatti hanno segnato una cesura che ha concluso il Novecento politico degli italiani. A partire da questa novità interpretativa, l'autore ripercorre l'intera storia repubblicana. Ricostruisce, tra l'altro, i modi con cui le famiglie politiche hanno concorso all'organizzazione del potere e alla vita collettiva, realizzando una prima socializzazione politica di massa. E come, pur essendo i soggetti fondatori della democrazia e della sua stabilità, siano pressoché scomparse.

**Remembering Survival: Inside a Nazi Slave-Labor Camp** Christopher R. Browning 2011-01-10 "An important, revealing story, exceptionally well told."—Jonathan Yardley, Washington Post Employing the rich testimony of almost three hundred survivors of the slave-labor camps of Starachowice, Poland, Christopher R. Browning draws the experiences of

the Jewish prisoners, the Nazi authorities, and the neighboring Poles together into a chilling history of a little-known dimension of the Holocaust. Brutal and deadly in their living and work conditions, these camps represented the only chance of survival for local Jews after the ghetto liquidations of 1942. There they produced munitions for the German war effort while scrambling to survive murderous and corrupt camp regimes and desperately trying to protect children, spouses, parents, and neighbors. When the labor camps closed in the summer of 1944, the surviving Starachowice Jews still had to confront Auschwitz and then the reprisals of anti-Semitic Polish neighbors. Combining harrowing detail and insightful analysis, Browning's history is indispensable scholarship and an unforgettable story of survival.

## ANNO 2016 IL DNA DEGLI ITALIANI PRIMA PARTE ANTONIO GIANGRANDE

E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono

gli stessi che ti condannano. Meno facile è essere saggisti e scrivere “C’è adesso...” e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l’aiuto cercato non lo concederanno mai. “Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente”.

Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l’immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Giorgio Ambrosoli e Paolo Baffi Angelo Porta 2011-02-11T00:00:00+01:00 Il Centro Paolo Baffi dell’Università Bocconi nell’anniversario della scomparsa di Giorgio Ambrosoli (1979) e di Paolo Baffi (1989) ha voluto onorarne la memoria organizzando nel settembre 2009 un convegno sulla difesa della legalità nei mercati finanziari. Traendo spunto dal convegno, è nata questa pubblicazione che ci riporta alle tragiche vicende di trent’anni fa, ai tempi in cui la crisi dell’impero finanziario costruito in maniera spregiudicata da Michele Sindona portò, in un rapido crescendo, all’attacco alla Banca d’Italia, e in particolare a Paolo Baffi e Mario Sarcinelli, e poi al feroce assassinio di Giorgio Ambrosoli. L’eccezionale impegno profuso a difesa della legalità da Giorgio Ambrosoli e da Paolo Baffi, nei loro rispettivi ruoli, emerge con forza da tutti i saggi raccolti nel

volume. Con altrettanta forza i saggi mettono in luce, anche a beneficio delle generazioni più giovani, quanto attuali siano, nella situazione di crisi finanziaria in cui oggi ci troviamo, i principi che contraddistinsero l’operato di Ambrosoli e Baffi, con particolare attenzione al ruolo del disegno e del rispetto delle regole, pilastri di uno sviluppo sano dell’economia di mercato.

**Heidegger and the Jews** Donatella Di Cesare 2018-08-23 Philosophers have long struggled to reconcile Martin Heidegger’s involvement in Nazism with his status as one of the greatest thinkers of the twentieth century. The recent publication of his Black Notebooks has reignited fierce debate on the subject. These thousand-odd pages of jotted observations profoundly challenge our image of the quiet philosopher’s exile in the Black Forest, revealing the shocking extent of his anti-Semitism for the first time. For much of the philosophical community, the Black Notebooks have been either used to discredit Heidegger or seen as a bibliographical detail irrelevant to his thought. Yet, in this new book, renowned philosopher Donatella Di Cesare argues that Heidegger’s “metaphysical anti-Semitism” was a central part of his philosophical project. Within the context of the Nuremberg race laws, Heidegger felt compelled to define Jewishness and its relationship to his concept of Being. Di Cesare shows that Heidegger saw the Jews as the agents of a modernity that had disfigured the spirit of the West. In a deeply disturbing extrapolation, he presented the Holocaust as both a means for the purification of Being and the Jews’ own “self-destruction”: a process of death on an industrialized scale that was the logical conclusion of the acceleration in technology they themselves had brought about. Situating Heidegger’s anti-Semitism firmly within the context of his thought, this groundbreaking work will be essential reading for students and scholars of philosophy and history as well as the many readers interested in Heidegger’s life, work, and legacy.

**Europe Under Napoleon** Michael Broers 2014-11-18 Napoleon Bonaparte dominated the public life of Europe like no other individual before him. Not surprisingly, the story of the man himself has usually swamped the stories of his subjects. This book looks at the history of the Napoleonic Empire from an entirely new perspective – that of the ruled

rather than the ruler. Michael Broers concentrates on the experience of the people of Europe – particularly the vast majority of Napoleon's subjects who were neither French nor willing participants in the great events of the period – during the dynamic but short-lived career of Napoleon, when half of the European continent fell under his rule.

**L'apocalisse è un lieto fine** Ermanno Olmi 2013-01-09 "Ho bisogno della bellezza, così come amo ogni anelito dell'uomo per compararsi a essa. Rinuncerei a qualsiasi merito artistico pur di riuscire a fare della mia vita un'opera d'arte." È il principio che guida Ermanno Olmi in questa esplorazione di una vita, delle sue poche certezze e dei suoi molti incontri. Cresciuto nel pieno della disfatta fascista e testimone critico della rinascita nazionale, Olmi è stato giovanissimo fornaio, impiegato ragazzino, regista precoce. Ha vissuto direttamente l'abbandono delle campagne e l'esplosione della società dei consumi e per questo, divenuto protagonista della stagione d'oro del cinema italiano, ha scelto di rappresentare non i lustri del Boom, ma la cecità di uno sviluppo che ha strappato il nostro Paese alle sue radici contadine. Proprio questa ferita è il cuore filosofico della sua illuminante autobiografia. L'Apocalisse è un lieto fine non è infatti solo il racconto di una vita densa e affascinante, degli incontri e dei successi che l'hanno segnata. È soprattutto la profonda, urgente riflessione con cui l'artista che ha saputo cogliere gli ultimi echi della civiltà rurale ci mette in guardia davanti al declino di un'altra epoca umana: la nostra. Abbiamo dimenticato cosa vuol dire "far bene" e coltivato a dismisura l'etica del male minore. Produttività, arricchimento e potere continueranno a rinchiuderci nelle loro gabbie fino a quando non saremo pronti a imparare l'eterna lezione della terra: il ciclo delle sue stagioni, del suo naturale farsi e disfarsi. Soltanto allora il senso della fine non sarà più un oscuro presagio, ma l'alba di un mondo che verrà. Una nuova terra madre tutta da imparare, davanti alla quale ritrovare il nostro incanto.

**Animation: A World History** Giannalberto Bendazzi 2015-10-23 A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. Volume II delves into the decades following the Golden Age, an uncertain time when television series were overshadowing feature films, art was heavily influenced by the Cold War, and new technologies began to emerge that threatened the traditional methods of animation. Take part in the turmoil of the 1950s through 90s as American animation began to lose its momentum and the advent of television created a global interest in the art form. With a wealth of new research, hundreds of photographs and film stills, and an easy-to-navigate organization, this book is essential reading for all serious students of animation history. Key Features Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you're looking for

**Processing the Past** Francis X. Blouin Jr. 2012-12-18 *Processing the Past* explores the dramatic changes taking place in historical understanding and archival management, and hence the relations between historians and archivists. Written by an archivist and a historian, it shows how these changes have been brought on by new historical thinking, new

conceptions of archives, changing notions of historical authority, modifications in archival practices, and new information technologies. The book takes an "archival turn" by situating archives as subjects rather than places of study, and examining the increasingly problematic relationships between historical and archival work. By showing how nineteenth- and early twentieth-century historians and archivists in Europe and North America came to occupy the same conceptual and methodological space, the book sets the background to these changes. In the past, authoritative history was based on authoritative archives and mutual understandings of scientific research. These connections changed as historians began to ask questions not easily answered by traditional documentation, and archivists began to confront an unmanageable increase in the amount of material they processed and the challenges of new electronic technologies. The authors contend that historians and archivists have divided into two entirely separate professions with distinct conceptual frameworks, training, and purposes, as well as different understandings of the authorities that govern their work. *Processing the Past* moves toward bridging this divide by speaking in one voice to these very different audiences. Blouin and Rosenberg conclude by raising the worrisome question of what future historical archives might be like if historical scholars and archivists no longer understand each other, and indeed, whether their now different notions of what is archival and historical will ever again be joined.

Politicians Don't Pander Lawrence R. Jacobs 2000-06-21 In this provocative and engagingly written book, the authors argue that politicians seldom tailor their policy decisions to "pander" to public opinion. In fact, they say that when not facing election, contemporary presidents and members of Congress routinely ignore the public's preferences and follow their own political philosophies. 37 graphs.

### **If the Universe Is Teeming with Aliens ... WHERE IS EVERYBODY?**

Stephen Webb 2002-10-04 In a 1950 conversation at Los Alamos, four world-class scientists generally agreed, given the size of the Universe, that advanced extraterrestrial civilizations must be present. But one of

the four, Enrico Fermi, asked, "If these civilizations do exist, where is everybody?" Given the fact that there are perhaps 400 million stars in our Galaxy alone, and perhaps 400 million galaxies in the Universe, it stands to reason that somewhere out there, in the 14 billion-year-old cosmos, there is or once was a civilization at least as advanced as our own. Webb discusses in detail the 50 most cogent and intriguing solutions to Fermi's famous paradox.

The Day Of The Owl Leonardo Sciascia 2014-01-02 In the piazza, a man lies dead. No one will say if they witnessed his killing. This presents a challenge to the investigating officer, a man who earnestly believes in the values of a democratic and modern society. Indeed, his enquiries are soon blocked off by a wall of silence and vested interests; he must work against the community to save it and expose the truth. The narrative moves on two levels: that of the investigator, who reveals a chain of savage crimes; and that of the bystanders and watchers, of those complicit with secret power, whose gossipy, furtive conversations have only one end - to stop the truth coming out. This novel about the Mafia is also a mesmerizing demonstration of how that organization sustains itself. It is both a beautifully, tautly written story and a brave act of denunciation.

Into the Wild Jon Krakauer 2018-07-12 With an introduction by novelist David Vann In April 1992, Chris McCandless set off alone into the Alaskan wild. He had given his savings to charity, abandoned his car and his possessions, and burnt the money in his wallet, determined to live a life of independence. Just four months later, Chris was found dead. An SOS note was taped to his makeshift home, an abandoned bus. In piecing together the final travels of this extraordinary young man's life, Jon Krakauer writes about the heart of the wilderness, its terribly beauty and its relentless harshness. *Into the Wild* is a modern classic of travel writing, and a riveting exploration of what drives some of us to risk more than we can afford to lose.

**The Italian Army in Slovenia** Amedeo Osti Guerrazzi 2013-07-17 This powerful study offers a vivid and often disturbing account of the Italian army's occupation of Slovenia during World War II. It moves from the decision of the Italians to annex Slovenia in 1941, through local resistance and brutal reaction against civilians, to the army's ultimate collapse following Italy's defection from the Axis.

**Governing Educational Spaces** Hans-Georg Kotthoff 2015-12-14 The governance of education in many countries and regions of the world is currently in transition, challenging histories, remaking subjectivities and shaping possible futures. This book provides an up to date analysis and discussion of the cutting edge theme of educational governance from an international comparative perspective. The volume explores the landscape of educational governance in its broadest sense; considering new forms of steering, leadership and management, assessment and evaluation, teaching and learning, knowledge creation and the realities and possibilities for different forms of political engagement. The new spatial dynamics of education are explored in institutional settings such as schools and universities and via professional groupings such as teachers, administrators and leaders. The chapters in this book are based on the best peer reviewed papers and keynote speeches, which were delivered at the XXVI Conference of the Comparative Education Society in Europe (CESE) in June 2014 in Freiburg, Germany. Comparative Education is uniquely situated to explore the emerging dynamics of educational governance within changing and newly emerging educational spaces because it provides the opportunity to learn more about different local, national or regional educational processes and trajectories and to share knowledge about the logics, ideologies and impacts of different techniques and regimes of governance across Europe and beyond. Hans-Georg Kotthoff is Professor of Comparative Education and School Pedagogy at the University of Education Freiburg, Germany, and President of the Comparative Education Society in Europe (CESE) since 2012. Eleftherios Klerides is Lecturer in Comparative Education and History of Education at the University of Cyprus and the Secretary-Treasurer of the Comparative Education Society in Europe (CESE).

**Women Who Changed the World** Rosalind Horton 2007 A celebration of the achievements of womankind, this book honours fifty amazing women and the incredible impact they have had on our world. From empire builders and healers to daring explorers and iconoclastic thinkers, these are moving stories of dedication, conflict, tragedy and triumph, as dramatic as any fiction. Each will both inspire readers and provide a greater understanding of the crucial role these women played in shaping our culture and history, and the debt we owe them. Presented chronologically, from antiquity to the modern day, each of these remarkable women's stories is told with a complete biography, a time-line setting their achievement in its historical context, and a selection of little-known facts and intimate insights, alongside an iconic black-and-white image and one of their inspiring quotations. Great Women in History pays homage to fifty of the most influential and admired women of all time, including: Cleopatra, Mary Magdalene, Boudicca, Joan of Arc, Catherine the Great, Elizabeth I, Emmeline Pankhurst, Jane Austen, Amelia Earhart, Marie Curie, Florence Nightingale, Mother Teresa, Virginia Woolf, Eleanor Roosevelt, Helen Keller, Anne Frank, Katharine Hepburn, Simone de Beauvoir, Rosa Parks, Madame Mao, Eva Peron, Margaret Thatcher, Marilyn Monroe, Germaine Greer, Billie Jean King, Oprah Winfrey, Madonna and Princess Diana.

**Leaders Who Changed History** DK 2019-03-07 Explore the lives and achievements of more than 85 of the world's most inspirational and influential leaders with this innovative, and boldly graphic biography-led book. Comprehensive in its scope and depth, and fully illustrated, Leaders profiles leaders from all walks of life - kings, queens, and political leaders; military leaders; religious icons, revolutionaries, and business leaders. Combining accessible text with specially-commissioned illustrated portraits in a range of bold artwork styles, photographs, and infographics, these entries showcase each individual in a fresh, visual way. Covering political masterminds and military geniuses such as Alexander the Great

or Genghis Khan, great kings, queens, and rulers like Elizabeth I or Cleopatra, icons of religion and rebellion from Muhammad to Mohandas Gandhi to Emmeline Pankhurst, and inspirational captains of industry, Leaders explores and explains the groundbreaking contributions made by these men and women and their legacies.

Radici e Sangue Gianni Pesce 2012-01-01 Non siamo in presenza di un romanzo o di racconti i quali, basati su fatti realmente accaduti, presentino i contorni della letteratura di svago, sia pur offrendo interessanti spunti di riflessione. Ora determinati personaggi assumono la loro vera identità, protagonisti e comprimari di una vicenda che ha come sfondo l'intreccio tra politica e criminalità mafiosa. Il velo che copriva realtà nascoste riguardanti il potere politico era già stato sollevato nel libro Radici e Potere. Ma qui la storia assume i contorni della tragedia, con numerosi servitori dello Stato caduti sotto il piombo di Cosa nostra.

**Risks of the World Economy's Dependence on the Suez Canal and the Strait of Hormuz** Nathanael Schabrun 2021-08-03 Bachelor Thesis from the year 2021 in the subject Business economics - Trade and Distribution, University of Luzern, language: English, abstract: It is not uncommon for people to appreciate something solely when it is gone, as in the case of food, water, and oil, where the lack of it points out a dependence many did not even know had existed. Billions of dollars were lost when the Suez Canal was blocked by a cargo ship a few months ago. Furthermore, the reliance of the world economy on sea straits is being made even clearer when looking at January 2020, when oil prices increased as tensions between the US and Iran escalated, and investors feared an Iranian closure of the Strait of Hormuz, which is one of the world's most important sea straits. With these events in mind, one can clearly see how vulnerable the world economy is; it is dependent on the sea straits remaining open at all times. If one major sea strait is blocked for a prolonged time, this will lead to significant supply disruptions. These disruptions will not only affect the global oil trade and hence the world economy, but also food security and peace, as food shortages are known to contribute to the outbreak of violence, for which the Arab Spring uprising can serve as an example. The aim of this paper is to consider the

world's two major sea straits in the Middle East and develop an index in order to estimate the risk that these two straits pose to the world economy.

**Weapons of Mass Migration** Kelly M. Greenhill 2011-06-23 At first glance, the U.S. decision to escalate the war in Vietnam in the mid-1960s, China's position on North Korea's nuclear program in the late 1990s and early 2000s, and the EU resolution to lift what remained of the arms embargo against Libya in the mid-2000s would appear to share little in common. Yet each of these seemingly unconnected and far-reaching foreign policy decisions resulted at least in part from the exercise of a unique kind of coercion, one predicated on the intentional creation, manipulation, and exploitation of real or threatened mass population movements. In *Weapons of Mass Migration*, Kelly M. Greenhill offers the first systematic examination of this widely deployed but largely unrecognized instrument of state influence. She shows both how often this unorthodox brand of coercion has been attempted (more than fifty times in the last half century) and how successful it has been (well over half the time). She also tackles the questions of who employs this policy tool, to what ends, and how and why it ever works. Coercers aim to affect target states' behavior by exploiting the existence of competing political interests and groups, Greenhill argues, and by manipulating the costs or risks imposed on target state populations. This "coercion by punishment" strategy can be effected in two ways: the first relies on straightforward threats to overwhelm a target's capacity to accommodate a refugee or migrant influx; the second, on a kind of norms-enhanced political blackmail that exploits the existence of legal and normative commitments to those fleeing violence, persecution, or privation. The theory is further illustrated and tested in a variety of case studies from Europe, East Asia,

and North America. To help potential targets better respond to-and protect themselves against-this kind of unconventional predation, Weapons of Mass Migration also offers practicable policy recommendations for scholars, government officials, and anyone concerned about the true victims of this kind of coercion—the displaced themselves.

**Difesa degli avvocati scritta da un pubblico accusatore** Paolo Borgna 2014-04-10T00:00:00+02:00 Paolo Borgna, spirito libero, apprezzatissimo magistrato, scrittore civile e garante dei valori costituzionali, spiega al lettore, immaginando di parlare con un suo giovane uditore, quanto sia importante la funzione dell'avvocato, come sia insopprimibile la figura costituzionale del 'difensore dei diritti', perché sia necessario per il bene stesso della società conservare a questa categoria il diritto a svolgere una professione intellettuale libera e dignitosa, non equiparabile con l'attività d'impresa e non assimilabile ad una funzione pubblica, ancorché socialmente essenziale. Guido Alpa, Presidente del Consiglio Nazionale Forense

*Aristotle's Zoology and Its Renaissance Commentators, 1521-1601* Stefano Perfetti 2000 Almost neglected in the Middle Ages, Aristotle's libri de animalibus received increasing attention in the Cinquecento, and were often commented on by several professional Aristotelians. Dr. Perfetti reconstructs this commentary tradition: a parabola that goes from Pomponazzi's lessons on the De partibus animalium (held in Bologna, 1521-23) up to the publication of Cristoforo Guarinoni's Commentaria in primum librum De historia animalium, Frankfurt 1601, and includes other bright lights of the Aristotelian scene, such as Niccolo Leonico Tomeo, Agostino Nifo, Julius Caesar Scaliger, Simone Porzio, Francesco Vimercato, Cesare Cremonini, and Theodore Gaza. The author pays special attention to the peculiar techniques of analysis employed by each commentator and to the balance between philology, erudition, and natural philosophy. This study also provides a reading key that explains the reasons for this renewed interest for philosophical zoology in the first half of the century

and explains why commentators transformed their use of Aristotle's zoology throughout the second half of the century, to reach, eventually, the extinction of exegesis per modum commenti.

**Your Freedom and Mine** Miley Thomas Jeffrey Miley 2019-10-15 "e;Only free men can negotiate. Prisoners cannot enter into contracts... I cannot and will not give any undertaking at a time when I and you, the people, are not free. Your freedom and mine cannot be separated."e;-From a letter by Nelson Mandela during his imprisonment, February 10, 1985A revolutionary imprisoned on an island fortress may hold the key to peace in the Middle East. The leader of the outlawed Kurdistan Workers' Party (PKK), Abdullah calan, is considered by many to be the "e;Kurdish Mandela"e;; courageously issuing proposals for peace even from his prison cell. His ideas on democracy, women's liberation, and freedom have even inspired the remarkable Rojava Revolution in northern Syria. As Turkey descended into tyranny and Syria exploded in civil war, a peace delegation of European politicians, academics, and journalists, led by Nelson Mandela's lawyer and Supreme Court judge Essa Moosa, repeatedly attempted to go to meet with calan at his prison on Imrali Island. Your Freedom and Mine tells the story of these momentous delegations. The book opens with an informative historical overview of the Kurdish Question, leading up until the optimistic opening-and eventual bitter failure-of the peace process in Turkey. It includes official documents and reports from the Imrali Delegations in Istanbul and Diyarbakir/Amed, which involved in-depth interviews with Kurdish and Turkish politicians, media, and civil society regarding the degenerating political and human rights situation. The final section is a collection of testimonials from delegation participants. Your Freedom and Mine offers crucial insight into the dramatic history and current reality of the Kurdish struggle for recognition and peace in Turkey.

Ostinazione civile. Idee e storie di una rigenerazione civica Umberto Ambrosoli 2016-05-17 La sfiducia nei confronti della capacità della politica di ascoltare, affrontare e risolvere i problemi dei nostri tempi si ripresenta periodicamente, confondendosi di volta in volta con la sfiducia verso i partiti o verso i politici (la casta!). Come conseguenza naturale appare il

moto del disimpegno qualunquistico, ma è uno sfociare evitabile ed evitato in una moltitudine di casi. Per alcuni, infatti, la sfiducia individuale o collettiva diviene ragione di ancora più urgente premura, di solerzia nei confronti della comunità. Parliamo in questo caso di ostinazione civile, comportamento che può essere svelato da azioni e comportamenti, ma anche da semplici parole chiave. Ecco, quindi, una sorta di glossario dell'impegno civico, che sfugge alle teorie e alle analisi del «civismo» per calarsi nella concretezza della rigenerazione possibile della politica. Per le nuove, affascinanti sfide che attendono le nostre città. Umberto

Ambrosoli, milanese, avvocato penalista, classe 1971, ha vinto come indipendente le primarie del Patto Civico, e ha guidato la coalizione del centrosinistra nelle elezioni della Regione Lombardia. Dal 2013 il Gruppo «Patto Civico con Ambrosoli» conta cinque consiglieri regionali. Il suo libro del 2009, Qualunque cosa succeda, ha ricevuto il premio Terzani (Udine) e il premio Capalbio; nel 2014 la Rai ne ha realizzato una fiction di successo, con Pierfrancesco Favino nel ruolo di Giorgio Ambrosoli. Nel 2015 ha pubblicato Coraggio (Bologna).
