Integration of the Armed Forces, 1940-1965 Morris J. MacGregor 1981-12 CMH Pub 50-1-1. Defense Studies Series. Discusses the evolution of the services' racial policies and practices between World War II and 1965 during the period when black servicemen and women were integrated into the Nation's military units.

Addressing and Resolving Poor Performance United States Office of Personnel Management 2012-06-26 Most Federal employees work hard, and their performance is considered good or even exceptional. However, at times Federal supervisors are faced with employees whose performance is not acceptable. This purpose of this book, *Addressing and Resolving Poor Performance: A Guide for Supervisors*, is to help you

address and resolve poor performance. This guidance should be used in concert with the technical advice you receive from your agency's human resources staff. You should also be aware that most agencies have specific procedures and requirements that must be followed, whether they are part of a negotiated bargaining agreement or other internal agency regulation. Addressing and resolving poor performance is a three-step process. These three steps are: 1) communicating expectations and performance problems; 2) providing an opportunity to improve; and 3) taking action. This booklet is organized accordingly into three steps. At the end of each section, you will find a checklist as well as answers to commonly asked questions. In the appendix, you will find samples of documents that can be used throughout this process. Dealing with performance problems is a real challenge for any supervisor. Experienced supervisors often say it is one of the toughest parts of their jobs. Nevertheless, it is a key supervisory responsibility, and failure to address poor performance can have a greater impact than you may appreciate. Some of the reasons supervisors often give for not addressing poor performance include: dealing with poor performance

can be time consuming; if action is taken against an employee, it will lower morale among other employees and create a less productive work environment; telling employees that they are not performing satisfactorily is unpleasant and requires special human relations skills; the procedural steps involved in addressing poor performance are complex and highly technical; if a formal performance-based action is taken, it is likely to be appealed and ultimately overturned; and upper management will not support the action taken to address poor performance. The focus of this booklet is to help supervisors address and resolve poor performance. The best way for supervisors to handle poor performance issues is to take action to avoid performance problems before they occur.~

Oil and Gas Production Handbook: An Introduction to Oil and Gas Production Havard Devold 2013*

Department of Defense Dictionary of Military and Associated Terms 1984

Contract Law Concentrate JILL. DEVENNEY POOLE (JAMES. SHAW-MELLORS, ADAM.) 2019-08 Contract Law Concentrate is written and designed to help you succeed. The Foundation Directory 1985

Interstate Commerce Act Amendments United States. Congress. Senate. Committee on Commerce. Subcommittee on Surface Transportation 1965 Committee Serial No. 89-32. Considers S. 1727 and related H.R. 5401, S. 1728, S. 1731, S. 1732, S. 1733, to tighten reporting requirements and penalties for control of illegal truck carriage operations. Also considers 11 bills to eliminate unnecessary trucking industry regulations, including regulations on interlocking directorates and required oaths in reporting.

Utilization-Focused Evaluation Michael Quinn Patton 1986 The second edition of Patton's classic text retains the practical advice, based on empirical observation and evaluation theory, of the original. It shows how to conduct an evaluation, from beginning to end, in a way that will be useful -- and actually used. Patton believes that evaluation epitomizes the challenges of producing and using information in the information age. His latest book includes new stories, new examples, new research findings, and more of Patton's evaluation humour. He adds to the original

book's insights and analyses of the changes in evaluation during the past decade, including: the emergence of evaluation as a field of professional practice; articulation of standards for evaluation; a methodological synthesis of the qualitative versus quantitative debate; the tremendous growth of 'in-house' evaluations; and the cross-cultural development of evaluation as a profession. This edition also incorporates the considerable research done on utilization during the last ten years. Patton integrates diverse findings into a coherent framework which includes: articulation of utilization-focused evaluation premises; examination of the stakeholder assumption; and clarification of the meaning of utilization. --Publisher description.

Economics Ha-Joon Chang 2014-08-26 The award-winning author of 23 Things They Don't Tell You About Capitalism outlines the real-world processes of the global economy while explaining how to better understand the strengths and weaknesses of key economics theories to better navigate today's interconnected world.

Maritime Logistics Dong-Wook Song 2015-04-03 Globalisation and the rapid increase in world trade in the past decade have contributed to greater demand for international transport and logistics and, consequently, the expansion of the maritime industry. The dramatic changes in the mode of world trade and cargo transportation make it more important than ever to have a clear understanding of the way in which freight is transported by sea and the role of ports in this exchange. At the cutting edge in its assessment of the industry, Maritime Logistics covers the whole scope of maritime logistics and examines latest logistical developments within the port and shipping industry. With a range of new international contributors, this new edition has been thoroughly revised and updated. There are new chapters on port centric logistics, hinterland logistics and global supply chains, maritime transport and logistics as a trade facilitator, and future trends and developments. Written by a team of international experts with over fifty years' experience in the field, Maritime Logistics provides a truly global perspective. The book covers everything that students of logistics, as well as those working within the industry, need to know about maritime

logistics, including shipping lines, containers, tankers, dry bulk, port-centric logistics, and much more.

Principles of Marketing Gary M. Armstrong 2018 An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. Principles of Marketing keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

Defence White Paper 2020

The Quest for Artificial Intelligence Nils J. Nilsson 2009-10-30
Artificial intelligence (AI) is a field within computer science that is attempting to build enhanced intelligence into computer systems. This book traces the history of the subject, from the early dreams of eighteenth-century (and earlier) pioneers to the more successful work of today's AI engineers. AI is becoming more and more a part of everyone's life. The technology is already embedded in face-recognizing cameras, speech-recognition software, Internet search engines, and health-care robots, among other applications. The book's many diagrams and easy-to-understand descriptions of AI programs will help the casual reader gain an understanding of how these and other AI systems actually work. Its thorough (but unobtrusive) end-of-chapter notes containing citations to important source materials will be of great use to AI scholars and researchers. This book promises to be the definitive history of a field that has captivated the imaginations of scientists, philosophers, and writers for centuries.

Eager to Learn National Research Council 2001-01-22 Clearly babies come into the world remarkably receptive to its wonders. Their alertness to sights, sounds, and even abstract concepts makes them inquisitive explorers--and learners--every waking minute. Well before formal schooling begins, children's early experiences lay the foundations for their later social behavior, emotional regulation, and literacy. Yet, for a variety of reasons, far too little attention is given to the quality of these crucial years. Outmoded theories, outdated facts, and undersized budgets all play a part in the uneven quality of early childhood programs throughout our country. What will it take to provide better early education and care for our children between the ages of two and five? Eager to Learn explores this crucial question, synthesizing the newest research findings on how young children learn and the impact of early learning. Key discoveries in how young children learn are reviewed in language accessible to parents as well as educators: findings about the interplay of biology and environment, variations in learning among individuals and children from different social and economic groups, and the importance of health, safety, nutrition and interpersonal warmth to

early learning. Perhaps most significant, the book documents how very early in life learning really begins. Valuable conclusions and recommendations are presented in the areas of the teacher-child relationship, the organization and content of curriculum, meeting the needs of those children most at risk of school failure, teacher preparation, assessment of teaching and learning, and more. The book discusses: Evidence for competing theories, models, and approaches in the field and a hard look at some day-to-day practices and activities generally used in preschool. The role of the teacher, the importance of peer interactions, and other relationships in the child's life. Learning needs of minority children, children with disabilities, and other special groups. Approaches to assessing young children's learning for the purposes of policy decisions, diagnosis of educational difficulties, and instructional planning. Preparation and continuing development of teachers. Eager to Learn presents a comprehensive, coherent picture of early childhood learning, along with a clear path toward improving this important stage of life for all children.

Research Methodology Ranjit Kumar 2010-11-12 Written specifically for students with no previous experience of research and research methodology, the Third Edition of Research Methodology breaks the process of designing and doing a research project into eight manageable steps and provides plenty of examples throughout to link theory to the practice of doing research. The book contains straightforward, practical guidance on: - Formulating a research question - Ethical considerations - Carrying out a literature review - Choosing a research design - Selecting a sample - Collecting and analysing qualitative and quantitative data - Writing a research report The third edition has been revised and updated to include extended coverage of qualitative research methods in addition to the existing comprehensive coverage of quantitative methods. There are also brand new learning features such as reflective questions throughout the text to help students consolidate their knowledge. The book is essential reading for undergraduate and postgraduate students in the social sciences embarking on qualitative or quantitative research projects.

Congressional Record United States. Congress 1964 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Safe and Effective Medicines for Children Institute of Medicine 2012-10-13 The Best Pharmaceuticals for Children Act (BPCA) and the Pediatric Research Equity Act (PREA) were designed to encourage more pediatric studies of drugs used for children. The FDA asked the IOM to review aspects of pediatric studies and changes in product labeling that resulted from BPCA and PREA and their predecessor policies, as well as assess the incentives for pediatric studies of biologics and the extent to which biologics have been studied in children. The IOM committee concludes that these policies have helped provide clinicians who care for children with better information about the efficacy, safety, and appropriate prescribing of drugs. The IOM suggests that more can be done to increase knowledge about drugs used by children and thereby improve the clinical care, health, and well-being of the nation's children.

The KALAH-CIDSS Project in the Philippines Asian Development Bank 2012-06-01 This report assesses the KALAH-CIDSS community-driven development project in the Philippines to determine its contribution toward improved service delivery and governance in the beneficiary communities. KALAH-CIDSS was found to be especially

effective in facilitating broad-based participation of community residents, addressing local priorities and delivering basic services to the intended beneficiaries, providing community residents with valuable experience, and creating space for local government officials to collaborate with community residents in subproject management. The project created positive effects on the income and non-income dimensions of poverty. It is valued highly by recipient communities, participating local governments, and development partners.

U.S. Marines In Vietnam: Fighting The North Vietnamese, 1967

Maj. Gary L. Telfer 2016-08-09 This is the fourth volume in an operational and chronological series covering the U.S. Marine Corps' participation in the Vietnam War. This volume details the change in focus of the III Marine Amphibious Force (III MAF), which fought in South Vietnam's northernmost corps area, I Corps. This volume, like its predecessors, concentrates on the ground war in I Corps and III MAF's perspective of the Vietnam War as an entity. It also covers the Marine Corps participation in the advisory effort, the operations of the two Special Landing Forces of the U.S. Navy's Seventh Fleet, and the services of Marines with the staff of the U.S. Military Assistance Command, Vietnam. There are additional chapters on supporting arms and logistics, and a discussion of the Marine role in Vietnam in relation to the overall American effort.

How to Write a Research Proposal and Thesis Mohamed E. Hamid 2013-03-08 This book describes meaning, stages and methods of writing a successful research project proposal and a thesis from the first draft proposal to the final version of the thesis. As a manual, this book follows a simple approach that beginners can use without complications and many terminologies and technical terms have been translated into Arabic. The book explains the structure of a thesis and proposal including title, abstract, introduction, literature review, materials and methods, results, discussion, biography and appendix (if there is any). These parts of the thesis are often mixed up without emphasizing the purpose of each part and often without limiting oneself to the specific chapter.
