Elegant and electric, *We Who Are About To...* brings us face to face with our basic assumptions about our will to live. While most of the stranded tourists decide to defy the odds and insist on colonizing the planet and creating life, the narrator decides to practice the art of dying. When she is threatened with compulsory reproduction, she defends herself with lethal force. Originally published in 1977, this is one of the most subtle, complex, and exciting science fiction novels ever written about the attempt to survive a hostile alien environment. It is characteristic of Russ's genius that such a readable novel is also one of her most intellectually intricate.

Flory, a young night fairy no taller than an acorn and still becoming accustomed to her wings — wings as beautiful as those of a luna moth — is about to find out. What she discovers is that the world is very big and very dangerous. But Flory is fierce and willing to do whatever it takes to survive. If that means telling others what to do — like Skuggle, a squirrel ruled by his stomach — so be it. Not every creature, however, is as willing to bend to Flory's demands.
